

Summer Reading List – 8th Grade 2023-2024

In an effort to encourage reading, and a love for reading, below is a recommended summer reading list for upcoming eighth grade students. A good goal to strive for would be at least four books from the reading list. I hope you will read many more than four over the summer! Don't forget to add any books you read that are not on the list as well. Return the form to school with your child on the first day of school.

I hope you have an exciting, enjoyable summer of reading!
